

## The next step in caring for your skin

It's more than microdermabrasion and chemical peels, yet not as invasive, expensive or drastic as more aggressive treatments.

This **NEW** approach to laser skin enhancement is **fast, effective and affordable** with minimal downtime for fresher, smoother, more brilliant skin from the inside out.

- Visibly illuminated skin tone
- Renewed, ultra-soft and smoother texture
- Natural radiance and glow
- Improved tone and texture
- Reduction in appearance of pores

**Clear + Brilliant is a great next step if you have already had:**

- *Retinols, creams and serums*
- *Peels and microdermabrasion*
- *Botox® and fillers*

Add **Clear + Brilliant** as a next step in your current skin care.
